

London Underground Track Maintenance

Client / Consulting Authority:

LUL / Metronet

Date:

Nov 1997 - April 2007

Project Value:

£29m

Location:

Various

**Project Highlights**

Colas Rail won the first and only long-term maintenance contract let by LUL to external contractors.

Colas Rail undertook patrolling, minor maintenance, major PWay maintenance and renewals. With the exception of signal staff, Colas Rail was completely independent in its activities.

Project Description

The project involved track maintenance between Stanmore-Stratford, Jubilee Line on LUL infrastructure covering approximately 96 kilometres and Finchley Road to Preston Road on the Metropolitan lines, District and ELL lines.

Colas Rail also arranged on-track machinery, possession management, access bookings, crane hire, road closure, LUL licenses, method statements and incident response.

The contract had dedicated teams of patrolmen, track quality gangs, production gangs, welders, lubricators, ultra-sonic, safety critical protection masters, handback personnel and SPC's.
